The cover photo, by David Haigh of AusAID,
Is of an SCFA project, Petit Amis, in Cambodia

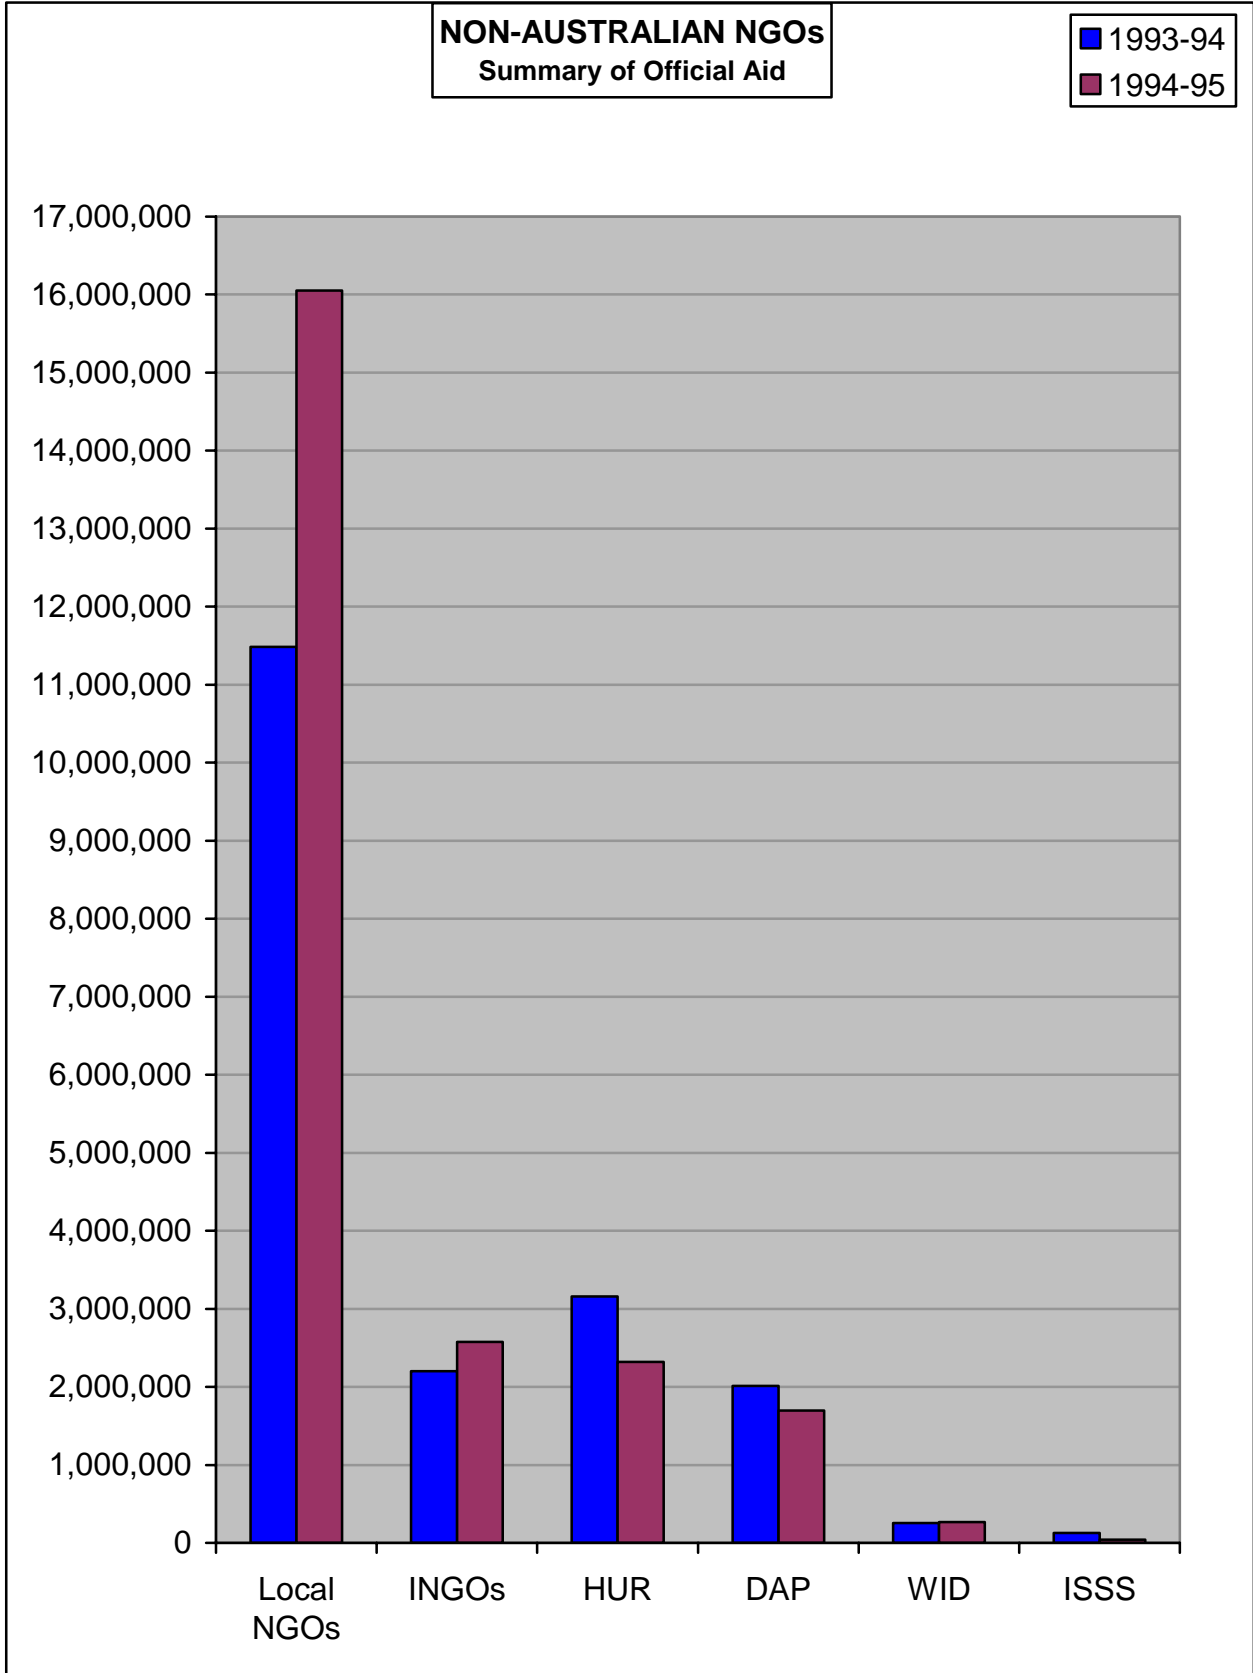

Statistical Note

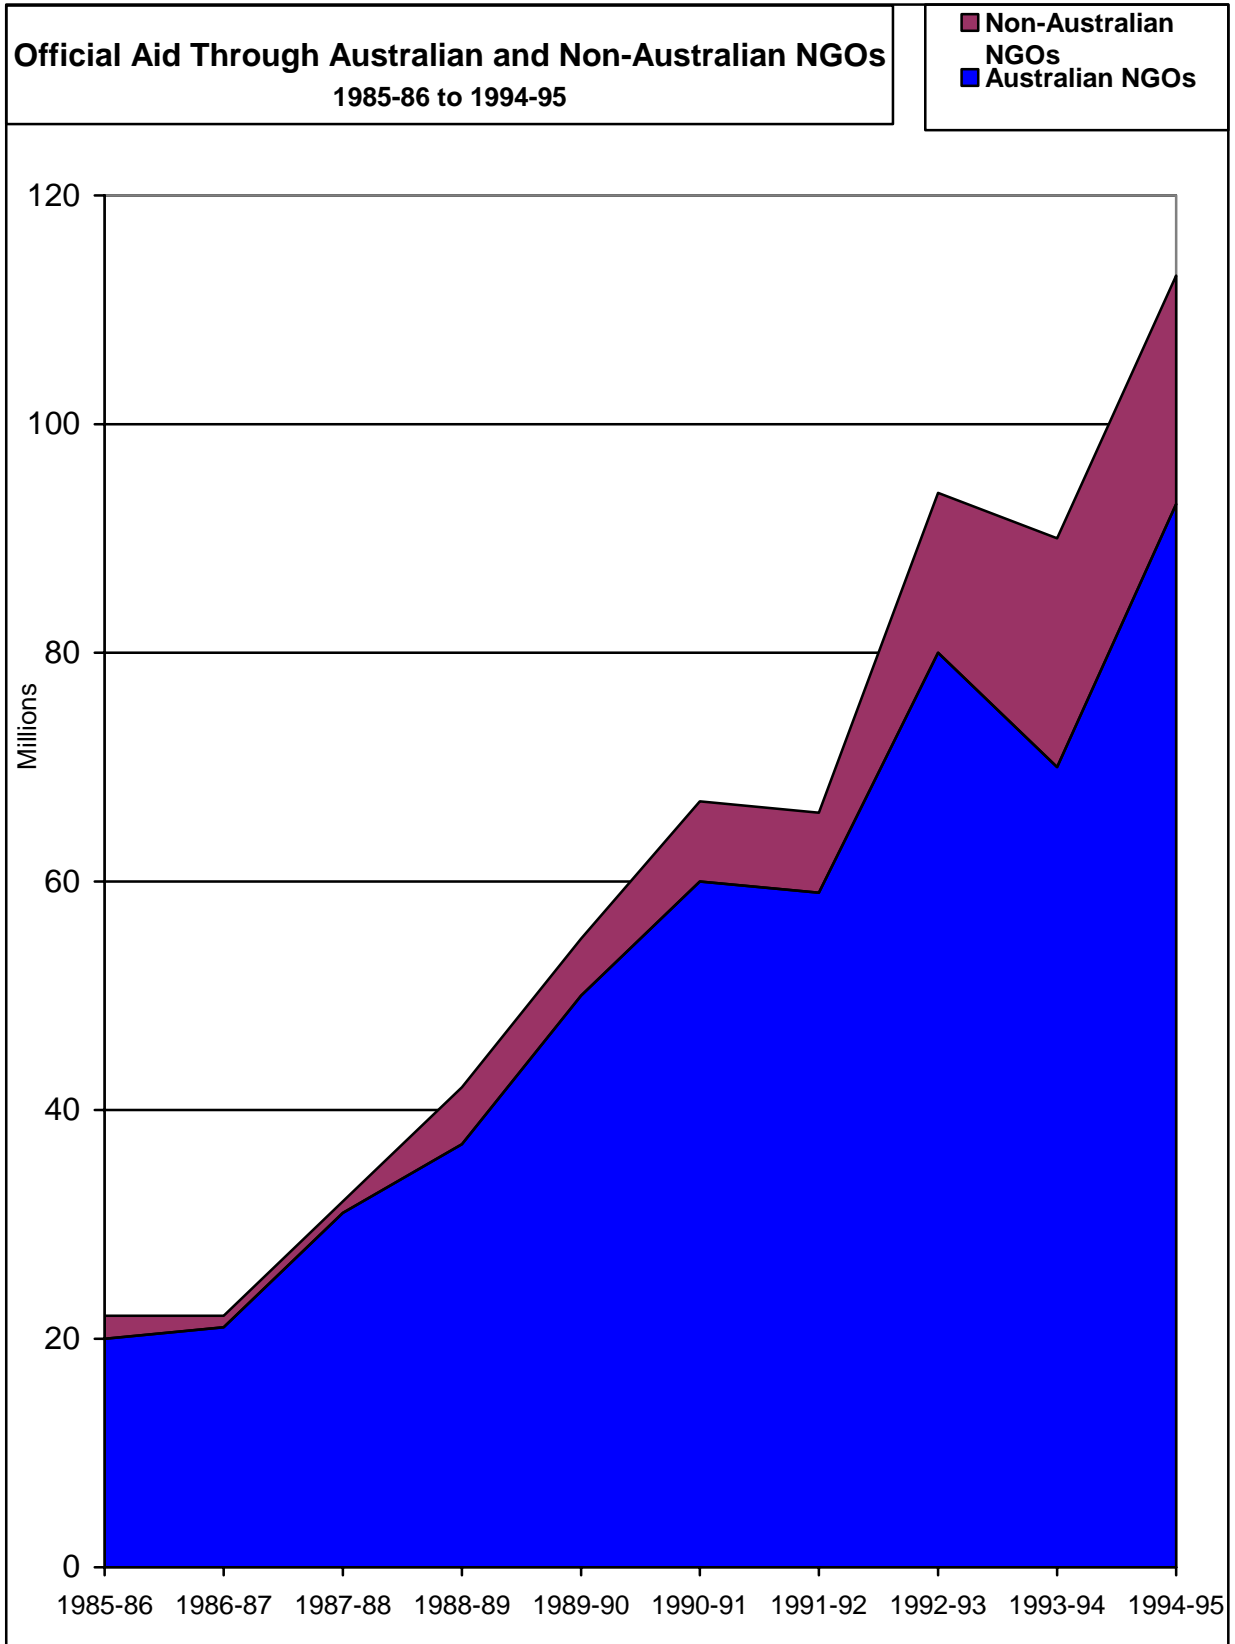

While every effort has been made to ensure the accuracy and currency of all statistics supplied/published by AusAID in this report, it should be noted that the statistical data are derived from a variety of sources in addition to AusAID's NGO database and may be subject to revision.

The report presents data consistent with Aid Budget statistics, which are based on Australian financial years. These statistics may not be compatible with data produced to meet the requirements of the OECD's Development Assistance Committee, which bases its reporting on calendar years. AusAID's Statistical and Research Section (STARS) should be contacted in any case of discrepancy with other published data.

Data on overseas post were incomplete at the time of printing. Revisions will affect overseas NGO data, but is unlikely to affect those for Australian NGOs
